

COVID-19

UPDATE

September 22, 2020

Dear Clients, Families and Team Members:

- Effective today, we are updating our Quarantine policy. ***Residents can now get their hair and nails done at an outside entity and avoid the 14-day quarantine, as long as they get their transportation from an approved source (selves, Essential Caregiver, paid transportation). Ask a nurse if you need clarification!***
- Starting Monday, September 28th, we plan on moving "outdoor visits" to a designated area inside each building with the cold weather coming. More details to come, but feel free to sign up as you typically do without worrying about the weather.
- Please continue to use the links to sign up for visits. This frees up our time to do other things for the care of our residents. If you lose this email, you can find the links any time on our website, we all as access these archived updates.

***Essential Caregivers...pleas use private link.*

Thank you immensely for your trust and patience!

Blessings,
Elaine Anderson
